OVERVIEW

XRNA MONKEY

LEGALITIES

RNAxMonkey wishes to inform you that nothing in this white paper is to be taken as an attempt to influence any of its readers to invest in any crypto currencies, including RNAxMonkey itself.
This white paper is merely for informational purposes only.

Please understand that any possible investments in crypto currencies should be considered risky due to the immense volatility traditionally seen in most crypto currencies.

Should you choose to invest in RNAxMonkey or any other crypto currency, we declare that we are in no way responsible for any of your potential losses.

By continuing to peruse this white paper, you acknowledge and accept all of the above.

SUMMARY OF ASPIRATIONS

We at RNAxMonkey have high aspirations, aiming to bring unprecedented NFT based 3D gaming and Play-To-Earn experiences to a wide audience of crypto enthusiasts and traditional gamers alike.

Our project will continuously be developed, as per our roadmap (see next page), with the aim of becoming the number one gaming based crypto currency in the whole world.

Furthermore, we aim to implement a large variety of earning opportunities via the game itself and via non-game based methods. These include selling or staking the Non-Fungible Tokens, as well as both single and LP staking for the fungible token itself.

ROADMAP

NOVEMBER 2021

- Team formed
- Seed sales
- Game development

DECEMBER 2021

- Community building
- Promotion & advertising

JANUARY 2022

- Ido public sales & pancakeswap launch
- CMC & Coingeko applied
- Airdrop events
- NFT Blind Box sales 1 & 2
- Alpha launch game testing
- RNAxMonkey NFT marketplace

FEBRUARY 2022

- NFT staking
- Token staking (incl. LP)
- NFT Blind Box sales 3 & 4
- P2E game launch
- Cretik audit
- Listing in 3 top 50 CEXs
- Monkey NFT minting stage 1

MARCH 2022

- PvP & tournament launch
- New jungle to explore
- Development of new games
- Monkey NFT minting stage 2

UTILITY INFO

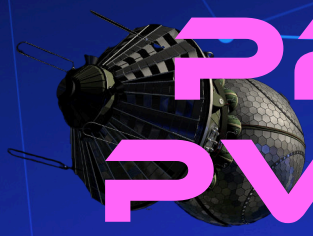
3D GAMING EXPERIENCE

The 3D game will be playable online and is therefore not limited by your choice of smart device nor by your choice of operating system, as long as the smart device has enough computing power to run the game.

Virtual reality will be implemented in the game, but having virtual reality glasses or other virtual reality related paraphernalia will not be a requirement for playing the game.

REQUIREMENTS FOR PLAYING

- Have a computer / smart device capable of running the games
- A sufficiently fast internet connection
- Own RNAxMonkeys tokens and NFTs



P2E WITH PVP & PVE

The RNAxMonkey 3D Play-to-Earn games are designed to give you several exciting gameplay options, each one earning you in-game tokens!

PLAYER VS PLAYER

In the PvP mode, you'll fight against either 2, 4, 6 or 8 players in an epic battle for dominance! Which one of you will be the last monkey standing?

PLAYER VS ENVIRONMENT

Control your fighter jet and fight against NPC monkeys, earning in-game tokens in relation to the amount of points you manage to accrue.

DAILY QUEST

Log in daily and play the minigames to earn daily rewards! We'll also have weekly and monthly minigames.

NFT MINTING AND TRADING

The RNAxMonkey NFTs can be minted in our website using our native token, giving our token a true utility and adding to its value.

MINTING YOUR NFT

STEP 1

Purchase the token

STEP 2

Purchase the Blind Box

STEP 3

Summon the Monkey

NFT STAKING

NFT staking can be likened to mining, as mining is no longer limited to Proof of Work provided by hardware devices. Indeed, storage space, asset liquidity, and behaviors that contribute to the project ecology can all be recognized as a form of mining in the crypto space.

The basic computing power of our Genesis NFT is shown as being between 100-300 power units. The better the quality of Genesis NFT, the higher the power amount. The higher the player's NFT mining power, the more profit is realized.

Naturally the mining revenue obtained by staking is not static, and will be affected by the quality of the NFT and the total rewards in the mining pool.

AUDIT AND KYC

We at RNAxMonkey have a passion towards safety and excellence, which is why we'll be audited by Certik, the number one security-focused ranking platform to analyze and monitor blockchain protocols and DeFi projects.

This audit will include a full KYC verification, which means that Certik will know exactly who we are, proving to you that we are never going to do anything malicious and that we are in this for the long haul.
