Legalities

Crowdfi wishes to inform you that none of the information written in this white paper is to be regarded as financial advice. Cryptocurrency investments are inherently volatile and any investments should be made only after due diligence and research and never with a large portion of your entire portfolio.

Crowdfi is under no legal obligation to refund you for any possible loss of funds resulting from market volatility or from any other reasons. Should you choose to invest, please do so mindfully. Thank you!

What is crowdfi

Crowdfi is a decentralized crypto fundraising tool that individuals, organizations and nonprofits can use in order to raise the funds to make a lasting difference in the community.

Through crowdfi, everyone has the tools to create and share their cause at an international level. Once you start attracting donations, you know you're attracting people that believe in your cause. Crowdfi is a platform that encourages everyone to do good in a world filled with chaos.

Benefits of crowdfi

Benefits of crowdfi for investors

For each donation there is a 4% fee, of which 75% will be distributed to all of our token holders.

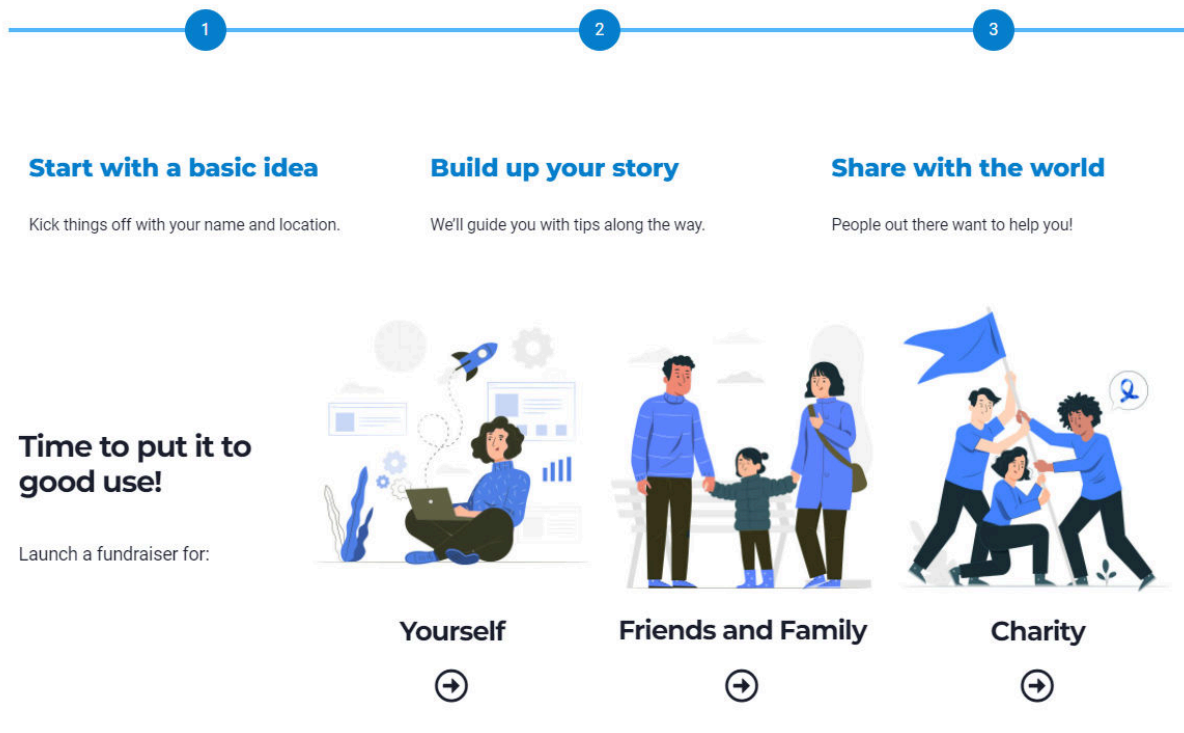

As an investor in the crowdfi native token, you'll be rewarded with a percentage of these fees as loyalty distributions, according to your percentage of holdings. In other words, the more you hold, the more you get!

You'll also be a part of changing other people's lives for the better! Earn while you help - what could be better?

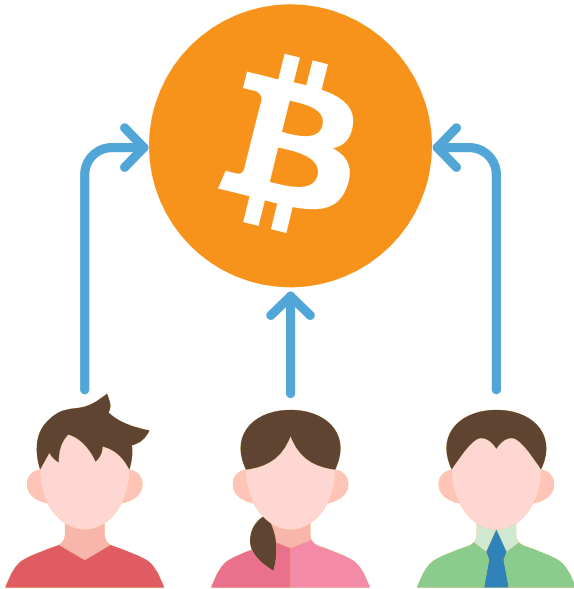

Benefits of crowdfi for campaign creators (1/2)

We wish you to get as many donations as possible for your campaign, which is why the crowdfi platform has been designed with clarity and ease of use in mind, for both you and the donators. Donations can be done with simply a few clicks and making your own campaign is just as easy, as shown below!

Benefits of crowdfi for campaign creators (2/2)

Ease of use is important, but Crowdfi offers more than simplicity. Indeed, by leveraging the growth of blockchain technology and crypto currencies as a whole, we aim to give you an unprecedented opportunity for funding your campaigns.

For example, during the very first weeks of the Russian war against Ukraine, over 50 million USD have been donated to the Ukrainian government in crypto currencies. This shows the awe inspiring power of crypto currencies as a form of donations and funding of campaigns.

The future of crowdfi

Roadmap and long-term goals

Our roadmap consists of four steps, which will be further expounded upon as the project matures.

- Private sale
- Website launch
- Platform launch
- Token launch
- Marketing Campaigns
- 2500 holders
- Donation campaigns
- 10 funded projects

- CMC listing
- CoinGecko listing
- 10,000 holders
- CEX listing
- Marketing Campaigns
- 25 Fundraised projects

- 20,000 holders
- 50 Fundraised projects
- Marketing campaigns
- Donation campaigns

- 30,000 holders
- 1,000,000 USD raised
- 100 Fundraised projects
- Marketing campaigns

We wish to help as many people change their lives as possible, whether they're holders of our token or creators of our fundraising campaigns. We aim to become a well-known player in both the crypto communities as well as in the fundraising market!
